Dr. Greene's Nervura Gives Strength and Vigor.

Ilow many thousands to-day suffer from sleeplessness critaced by nervous weakness. It is one of the incidents of American life, and you who road these lines are no doubt one of the great throng. After the day is done, and when its cares ought to cease, you wish that they might fold their tents like the Arabs and as silently steal away. When night has sleens in repose, your weary eyelds long for that tired nature's sweet restorer, balmy sleep. What would you not give for the rest you had in the olden times. But it is denied you. The long hours are full of weakness and weariness, and the coming day brings only headache and heartache, impaired strength and exhausted nerves, as you drag through its dutles.

There is no burden so painful and ne loss so wasting. It wreeks the body and impairs the mind. It is the fearful harbinger of insamily, it has filled our asylums with its victims. You know this, and gloomly dread the future. Weak, nervous and discouraged, the least excitament prostrates you, and you are siways worrying over anticipated trouble. Nothing goes right, and you often feel like despairing. You do not feel equal to the burden you once bore so easily.

Take heed while it is time. You are in the very Niagara of our nervous modern life. Do not delay. Safety is right at hand, if you will but accept it. That loss of appetite, gas in the stomach, torpial liver, constipation, nervousness, headache, etc., are but the first symptoms of the danger to come. It can be avoided, but only by acting at once.

Thousands have stood where you now stand, confronted by the same frightful consequences, and have been cured and restored to health and happiness by that wonderful enchanter of sleep, that marvelous restorer of nerve energy and physical strength. Dr. Greene's Nervura blood and nerve remedy. It is purely vegetable and entirely harmless.

Owing to the failure of last year's crops, the government is short of provisions of all kinds, and seriously hand-dicapped from lack of funds, the sinews of war. Organ Grinders to Pay Tax. City Mission Supper at Masonic Temple To-night.

Manchester Bureau, Times-Dispatch, l No, 1102 Hull Street.)

The liquor dealers of Manchester were astonished at the action taken by the Finance Committee in placing their license at \$125. They expected some increase, but did not look for such a heavy one, and it is quite likely that some protest will be made when the bill goes to Council.

There are eighteen saloons in the city now paying \$20. This increase will reach a revenue of \$1.719 alone. The raise may put some of the dealers out of business, but it is believed a strong fight will be made before the matter closes.

ORGAN GRINDERS TAXED.

The children of the city who love to watch the antics of the monkey and dance to the musto of the organ, will probably miss: that enchantment that lingers in the breast of man until his dying day, for the License Tax Committee has placed at tax of \$1 upon all organ grinders and itherant business of all kinds.
